

Session 7

Invite a great soul with 14 Dreams Meditation

आमंत्रण एक अद्भुत जीव को, 14 दिव्य स्वप्नों के साथ

Why does a speciifc soul come to you?

Does a baby choose you?

or

Do you choose the baby?

Souls are drawn to vibrations that match their own.

How does this journey truly begin?

What does a soul carry when it enters the womb?

How much can the parents' aura transform the soul's vibrations?

Create a right environment before welcoming a child

बच्चे का स्वागत करने से पहले सही वातावरण बनाएँ

- The soul enters without a visible body → the physical body forms in the womb.
- It carries two subtle bodies:

Karmic Body (Karman Sharir) – stores past deeds & impressions

Energy Body (Tejas Sharir) – provides life-force & vitality

- Analogy:

Computer = Physical body

Program = Karmic body

Electric current = Tejas sharir

- The soul descends at speed beyond light, carrying vibrations of past lives: Dev gati | Tiryanch gati | Manushya gati | Narak gati

Karmic body
कर्मण शरीर

Energy body
तेजस शरीर

3 reasons a soul comes in the womb

1. Past relationship (negative or positive)
2. Invited future relationship
3. Uninvited future relationship

AGS emphasizes only one reason: Invitation.

Wherever the soul comes from — if it is welcomed consciously, it becomes divine. ***“Atithi Devo Bhava”*** — the guest is God. A soul that is received as an honored guest carries the blessing of divinity.

- Clouds rain only when the environment is right – the same way dreams appear when the mind is ready.
- In a dream, it feels real in the moment – only after waking we know it was a dream.
- While dreaming: No one speaks, yet you hear. Nothing happens, yet you feel it deeply.
- Dreams move beyond logic, directly engaging the Amygdala → letting you experience emotions without the actual event taking place.

When you go beyond logic mind,
the atmosphere changes

- Dreams come on their own — you cannot control them.
- But some dreams are so powerful, they transform the entire environment.
- Likewise, the soul may carry past energies...yet the right environment can nurture, heal, and transform those vibrations.

14 Divine Dreams – Gateway to Invite a Soul

14 स्वप्न - दिव्य आत्मा को बुलाने का द्वार

- Pran Pratishtha of Matritva – 14 Dreams Sadhana
- Just as no idol is worshipped without Pran Pratishtha, motherhood too needs the Pran Pratishtha of 14 Dreams.
- Purpose: Ignite hidden powers, Go beyond logic, Unleash the super-potential of motherhood
- A Tirthankara's mother sees all 14 divine dreams at once when the soul enters her womb.
- The power is of the soul, the mother becomes the medium.
- By aligning with the 14 Dreams, one aligns with the qualities & vibrations of Tirthankaras.

- 14 Dreams Sadhana – Tuning into Divine Frequency
- Like a TV: All channels exist at once, but the screen shows only the channel tuned to the right frequency.
- Similarly, 14 Dreams Sadhana is about tuning your frequency to the energy, emotions & vibrations of the Tirthankaras.
- By aligning, your character, energy, and leshya begin to transform.
- This alignment influences any soul that comes into your orbit.
- In life: Either we influence or we get influenced.
- The stronger vibration always becomes the influential one.

Awareness of receiving and welcoming

सजगता, ग्रहण और स्वागत करने की

During sunrise

East

During sunset

West

**The sky turns red at both dawn and dusk.
Red before → followed by sunrise & light.
Red after → followed by darkness & night.**

- Preparation before sunrise → AGS emphasizes readiness before the soul arrives.
- Imagine visiting a home where no one comes to receive you — you feel restless, not at peace.
- The same happens with most souls: They enter the womb unseen.
- The mother realizes only after missing her period or through a doctor.
- Until then, what does the soul feel? - Ignored. Neglected. Unwelcomed.
- Even as adults, our deepest fear is neglect — its root lies in not being consciously welcomed at birth.

- If dirt enters the eye or ear, or the stomach swells – we feel it instantly. Then how can a soul, entering with full power and force, go unnoticed?
- This shows lack of awareness, alertness, sensitivity.
- Summit of Pre-Conception Sadhana → Welcoming & Receiving the soul

Protocols after intimacy

Practise 72 hours of
celibacy after intimacy

Be alert every moment
and feel when it comes

Symptoms of Conception:

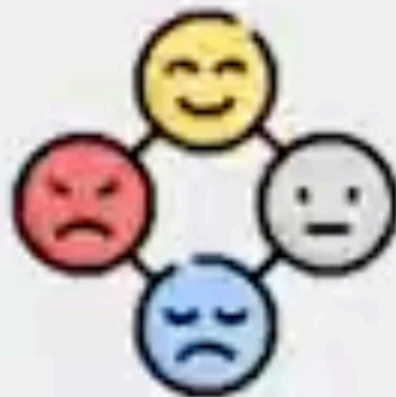

1. Body temperature dips on conception day
2. The mother feels a jolt or a change in emotions if the soul arrives (virtuous or sinful) during the day or will see a dream if the soul arrives during the night.
3. The mother will sense subtle vibrations.

Three symptoms at conception

Mother's body
temperature drops

Change in
parents emotions

Mother sees
a dream

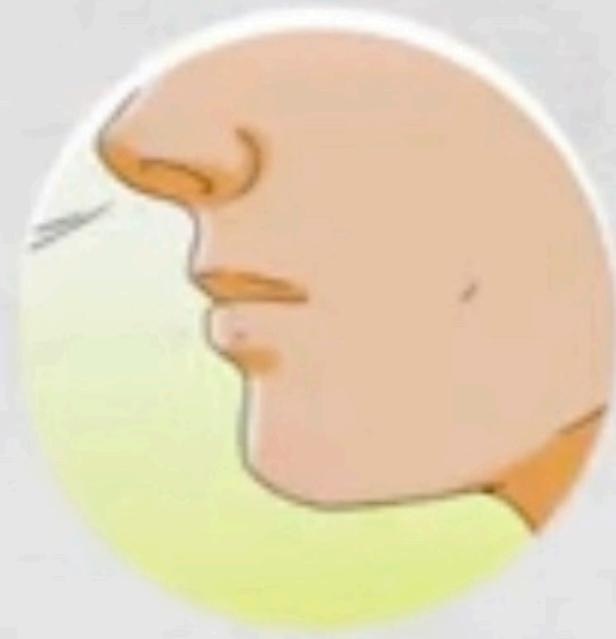

Mother senses
vibration in womb

- Step 1: Check which nostril is active → place cotton in the opposite nostril for 45 mins.
- The soul enters the womb in a particular temperature & environment.
- When breath flows from: Right nostril → Left brain active | Left nostril → Right brain active
- Hormone secretion changes with the active nostril → the soul should settle in the same environment.
- Practicing this ensures: No nausea or vomiting after conception.
- Final Step: Both parents welcome the child with warm, conscious words.

Protocols after conception

45 mins breathe through
same nostril

Welcome the being with
love both mother and father

The image features abstract line art in the top-left and bottom-left corners. These elements consist of numerous thin, dark grey lines that curve and sweep across the page, creating a sense of movement and depth. The lines are more densely packed in some areas, forming a web-like pattern, while in others, they are more sparse and delicate.
